

ABI MONTHLY REPORT¹ – May 2026

(Main evidence)

BANK LENDING

1. In April 2026, **the stock of loans to households and non-financial corporations increased by 2.7% yoy**, confirming the growth recorded in March and continuing the upward trend that began in March 2025. In detail, **for households it is the sixteenth consecutive month in which there has been an increase and for businesses it is the tenth consecutive month in which loans have grown. In fact, in March 2026 loans to households increased by 2.7% and those to businesses by 2.8%** (cf. Table 1).

STOCK OF CUSTOMER FUNDING

2. **Indirect funding**, i.e. investments in securities held by banks (both under management and held directly by customers) **increased by €98.8 billion** between March 2025 and March 2026 (€42.8 billion attributable to households, €16.5 billion to non-financial corporations and the remaining to other sectors, financial companies, insurance companies, public administration).
3. In April 2026, **total funding** (deposits from resident customers and bonds) **increased by 2.9% yoy**, continuing the positive trend observed since the beginning of 2024 (+2.6% in the previous month; cf. *Table 2*).
4. In April 2026 **deposits**, in their various forms, **increased by 2.7% yoy** (+2.5% in the previous month).
5. **Medium and long-term funding**, i.e. through bonds, in April 2026 **increased by 4.1%** compared to a year earlier (+3.5% in the previous month).

¹ The ABI monthly report makes available a series of quantitative information before any other survey regarding the same data. This is possible because the banks themselves have produced this information.

LENDING INTEREST RATES

6. In April 2026:

- **the average rate on total outstanding loans** (i.e., those agreed upon over the years) was **4.02%** (+3 cents compared to the previous month);
- **the average rate on new business loans** was **3.62%** (+24 cents compared to the previous month; 5.45% in December 2023);
- **the average rate on new loans for house purchasing** was **3.43%** (+6 cents compared to the previous month; 4.42% in December 2023; cf. Table 3).

INTEREST RATES ON BANKING FUNDING

7. The **interest rate on new deposits with agreed maturity** (i.e. certificates of deposit and time deposits) in April 2026 was **2.16%**, higher than the previous month (2.13%) and the euro area average of 1.92% in March. **Compared to June 2022**, when the interest rate was 0.29% (the last month before the start of the official interest rate hikes) **the increase was 187 basis points.**
8. **The yield on new fixed-rate bond issues in April 2026 was 2.73%.**
9. In April 2026, **the interest rate on total amounts of deposits** (current accounts, savings deposits and certificates of deposit), was **0.65%** (stable compared to March 2026 and higher than the 0.32% in June 2022).
10. **The interest rate on current accounts**, which does not have the function of investment and allows the use of a multitude of services, in April 2026 **was 0.29%** (unchanged compared to March 2026 and higher than the 0.02% in June 2022; cf. Table 4).

SPREAD BETWEEN LENDING RATE AND FUNDING RATE

11. The **spread on new business** with households and non-financial corporations **in Italy** (calculated as the difference between the rates on new loans and new funding) was **209 basis points** in April 2026.

CREDIT QUALITY

12. **In March 2026, net non-performing loans** (i.e., the total of bad loans, unlikely-to-pay exposures, and past due and/or overdrawn exposures, calculated net of write-downs and provisions already made by the banks) decreased to **€26.9 billion** from €27.7 billion in December 2025 (€31.3 billion in December 2024). Compared to their peak level of €196.3 billion reached in 2015, they have decreased by over €169 billion.
13. **In March 2026, net non-performing loans represented 1.28% of total loans.** This ratio was lower than in December 2025 (1.32%; 1.51% in December 2024; 9.8% in December 2015; *cf. Table 5*).
