

ABI MONTHLY REPORT¹ – November 2025 (Main evidence)

BANK LENDING

1. In October 2025, **the stock of loans to households and non-financial corporations increased by 1.5% yoy** (cf. Table 1); **in September 2025 loans to households increased by 2.2% yoy and those to non-financial corporations by 1.2%. For households, this marks the tenth consecutive month of growth, while for businesses it is the fourth consecutive month of rising lending.**

STOCK OF CUSTOMER FUNDING

2. **Indirect funding**, i.e. investments in securities held by banks (both under management and held directly by customers) **increased by €90.7 billion** between September 2024 and September 2025 (€19.5 billion attributable to households, €17 to non-financial corporations and the remaining to other sectors, financial companies, insurance companies, public administration).
3. In October 2025, **total funding** (deposits from resident customers and bonds) **increased by 3.3% yoy** continuing the positive trend observed since the beginning of 2024 (+3.0% in the previous month; cf. *Table 2*).
4. In October 2025 **deposits**, in their various forms, **increased by 2.8% yoy** (+3.1% in the previous month).
5. **Medium and long-term funding**, i.e. through bonds, in October 2025 **increased by 6.9%** compared to a year earlier (+2.7% in the previous month).

¹ The ABI monthly report makes available a series of quantitative information before any other survey regarding the same data. This is possible because the banks themselves have produced this information.

LENDING INTEREST RATES

6. In October 2025:

- **the average rate on new business loans** was **3.30%** (3.28% in the previous month and 5.45% in December 2023);
- **the average rate on new loans for house purchasing** was **3.56%** (3.38% in the previous month; 4.42% in December 2023);
- **the average rate on total outstanding loans** (i.e., those agreed upon over the years) was **3.95%** (3.94% in the previous month; cf. Table 3).

INTEREST RATES ON BANKING FUNDING

7. The **interest rate on new deposits with agreed maturity** (i.e. certificates of deposit and time deposits) in October 2025 was **2.10%**. In September this interest rate was higher than the euro area average (2.10% in Italy; 1.86% in euro area). **Compared to June 2022**, when the interest rate was 0.29% (the last month before the start of the official interest rate hikes) **the increase** was **181 basis points**.
8. **The yield on new fixed-rate bond issues in October 2025 was 3.50%** up 219 basis points from 1.31% in June 2022.
9. In October 2025, **the interest rate on total amounts of deposits** (current accounts, savings deposits and certificates of deposit), **was 0.64%** (0.63% in the previous month; 0.32% in June 2022).
10. **The interest rate on current accounts**, which does not have the function of investment and allows the use of a multitude of services, in October **was 0.28%** (as in the previous month; 0.02% in June 2022) (cf. Table 2).

SPREAD BETWEEN LENDING RATE AND FUNDING RATE

11. The **spread on new business** (calculated as the difference between the rates on new loans and new funding) with household and non-financial corporations **in Italy**, in October 2025 was **188 basis points**.

CREDIT QUALITY

12. **In September 2025, net non-performing loans** (i.e., the total of bad loans, unlikely-to-pay exposures, and past due and/or overdrawn exposures, calculated net of write-downs and provisions already made by the banks) decreased to **€29.4 billion** from €30.2 billion in March 2025 (€31.3 billion in December 2024). Compared to their peak level of €196.3 billion reached in 2015, they have decreased by almost €167 billion.

13. **In September 2025, net non-performing loans represented 1.41% of total loans**. This ratio was lower than in March 2025 (1.48%; 1.51% in December 2024; 9.8% in December 2015; *cf. Table 5*).
